“ I was reading a much newer version of *Upgrading and Repairing PC's* when I thought to look him up online. I was saddened to see this obituary for him. I always wanted to talk to him again to let him know that his ECS program got me all my jobs. It's true that I was concerned that his program would not get me any work because computer and electronics repair seemed to be a dying artform, even back in the late 90's. However, the opposite turned out to be true. His ECS program got me all my jobs and my web design degree got me nothing. If it were not for Art, I would not have finished my degree. Thanks for everything Art. It was great having you as a teacher and it was great working for you.

I forgot to mention that I'm a big proponent of Right to Repair Legislation now. Companies like Apple are trying to criminalize any repair of their products now. Crazy.

“ So sad to hearing the passing of Mr. Knapp. He was my professor for over two years at Macomb Community College and had taught me a lot about electronics and the computer field. He was always very kind and knowledgeable. I will for ever miss him. My God continue to bless him and his family along with Macomb Community College.

Sincerely

“ I've served with Arthur Knapp in church and at Macomb Community College for many years. He was excellent in every aspect. He was a great inspiration and role model to all. I'm blessed to have served alongside Rev. Knapp and with Professor Knapp. He will not be soon forgotten.

“ *Mr. Knapp was a very nice man and great teacher. I never had him as a teacher personally, but several times when I would be in Mr. Ventura's class he would come and talk with me and ask if i needed help with anything. He was a pleaseure to be around and always seemed to be in a good mood. I am sure you will be sorely missed, but you are now with our Heavenly Father! May God bless the Knapp family today and everyday, and give them peace only He can give.*

“ *I have such a debt of gratitude for Art. He interviewed me eight years ago for an adjunct faculty position at Macomb Community College. I was hired shortly thereafter. I always looked forward to the sound of his rolling cart as he passed by my classroom door prior to my class session. He would stop and we would chat about the latest developments of the day. Art has been my support system whenever I had any questions regarding the various academic and sometimes non-academic processes at the college. He was not only the rock of support to adjunct faculty members, but he was the go-to person for students who needed his guidance. It is hard to imagine MCC without Art Knapp.*

“ *Condolences to Linda and Andrea and Douglas and Ferne and family. Our fathers were life long friends and I have many childhood memories of visiting the Knapp home. I cherish our visit while at Ferne's when Art took us out to lunch. I remember as a little girl how exciting it was for me when Art and Linda got married and visited our home during their honeymoon. Bob and I are both remembering you all at this time that God would bring you strength during this time. God bless. Cheryl and Bob Doyle from Hamilton Ontario Canada.*

My husband and I met Art many years ago in church. He was always ready to show love to all. His actions were proof of the life that he not only lived but one of true faith in the Lord Jesus Christ. We will miss his talented hands on the piano. We will miss him. He has not passed away but has passed on to his heavenly home. Though we cannot be with the family at this time, our prayers continue.

“*My dear friend and colleague Art Knapp. We worked together for 30 years, sharing an office for 10 of those years. We always joked that we would retire from the college on the same day...well, threatened the college administrators really. But I always knew in my heart that Art would never retire, he loved his job that much. We collaborated on many projects over the course of time, advancing the technology offerings at Macomb College as best as we knew how. His opinions and presence will be sorely missed, yet his spirit will live on. His spirit will live on in the thousands of students that he'd instructed over the course of his career. His spirit will also live on with me as I continue to pursue the vision that we'd both shared for the electronics and mechatronics programs at the college. May God bless you and keep you Professor Art Knapp, and may your wonderful soul rest in eternal peace.*

“ *Although I never had him as a teacher, I worked along side Mr. Knapp several times shooting video for Macomb, first as a student and then as a professional. He was always very nice to me and was one of the first people to congratulate me and shake my hand when I was offered a full-time position as photographer/videographer in the marketing department of the school. Nothing but nice memories of him.*

“ *It was such a pleasure to work with Art. He was such a nice person, and was willing to help anyone, at anytime. Everyone at Macomb loved him, and he will be missed. God bless.*

“ I am shocked and saddened to hear of the passing of such a nice, compassionate and caring man. I didn't know Art very well except in how highly his son Doug (one of my closest best friends while living here in Florida) spoke of him. It's with our deepest condolences to Doug and Angie and the Knapp family may he rest in peace and in our Lord and Saviours loving arms in heaven. Nathan and Deborah Bowers Ocala, FL

“ Art was not just my father in law, he was my dad and that's what I called him from the moment I met him 22 years ago. I know this is a loss for so many people, not just our family but to his coworkers, students, friends and really anyone who knew him. He was the most wonderful man I ever met. He was a very faithful man in his love for the lord, and it showed in everything about him. I want to thank everyone in advance for your support and love for his family. Your stories of him mean so much to us. Thank you all again. Angie Knapp

“ Art loved teaching, he loved his students, he loved Macomb. He was one of the first people I met when I came to Macomb to work with the electric vehicle program, and he is one of my favorites. He bent over backwards to take care of his students, and wanted everyone to love the material as much as he did. He was an inspiration to many.

I am devastated to hear of his passing! A bright spark of energy has been stilled, but he lives on in Heaven, and in our hearts. God bless you all in this terrible loss.
