“ Even though Corey was only with us for not quite 22 years, he left a wonderful legacy. He showed us how important it is to be caring and kind and how to be a good friend, son and brother. The Memorial Service in Canton, Georgia on Tuesday was a testament to this where about 100 friends came to honor Corey. Sometimes life is out of our hands. It's bigger than us and it's hard to understand why things happen as they do, but we can never deny that Corey made a big impression on those who knew him. He was smart, he was humble, he was quiet but he made loud sounds on round things with sticks. He touched our hearts with his gentle spirit and he will be missed but remembered forever.

We love you, Corey, now and forever. Until we meet again. With love from Uncle Steve and Aunt Elaine

“ Kim, Steve, Tim and family.
On behalf of the entire Fenner family we send our heart felt condolences on such a sad loss. There are no words to convey such a needless end to such a young life or to erase this heart breaking time for you.
Over the last 27 years since we all first met and since have moved away from MI where we met, we still stay in touch for a reason.
Love & friendship!
Our thoughts are with you. Sincerely, The Fenner family, MI & TX

“ Even though we didn't talk all the time, I grew up with Corey. He felt like a second brother to me. I remember, just this past year I listened to a video clip of him playing drums in the band, Absolutely. I was so impressed and told him, I believe through Facebook. I was so proud of him. Also, at Steve and Tim's wedding, he asked me how my year living in Japan was. I felt so excited to tell him about it. His caring nature, laugh and smile is what I'll always remember fondly about my dear cousin. We always had so much fun altogether in our cousin group. I wish we could have talked more. I'll miss him so much.

“ I loved trying to get Corey to understand Euchar. He and Robert started talking high level mathematics/calculations but neither could understand the right and left Bowers. Kim, Connor and I could only think that Calculus must make minds unable to understand the simple concepts. I loved my drum lesson too. Miss you so much and mourn all the times I hoped we would have. Cousin, Cindy
