“ *I am so sorry about your loss. I met David only a couple times this last year at District meetings. As I talked with your mother this evening, Two numbers jumped at me. 27 years with Boy Scouting. Wow, that is more than a Quarter century. That's great considering most dads leave scouting when their son does. 68 years old. That is way too young. Should have many more years with grandkids.*

I can only say that he went ahead to "Blaze" a new trail for your family.

“ *My deepest sympathies for the Kiger family. My thoughts are turned to the numerous, lengthy conversations I had with Dave while overlooking Tommy's Lake at Camp Agawam. I have been the lucky recipient of his insights on camping programs that work, and Scoutmastership going back through the 20 years that I myself have been Scoutmaster and I know that I am a better person and have been a better Scouter for having those conversations with him. I will miss the welcome conversation he was always willing to have and I believe that Scouting in our community will miss his dedication and the vast sum of experience and knowledge he brought to us.*
