“ With deepest sympathy to Linda and their family. Gene will be remembered by his classmates at MSU as a friend with deep dedication to his profession, seemingly always in a jovial mood, and of course a great sense of humor. Even during some stressful times we went through Gene seemed to carry on as it was something you just had to deal with. His strong faith surely helped him through those times.

*William Haefner DVM*

“ I met Gene through Shawn many years ago during a duck season. When I pulled up the first thing I saw was a spread of decoys in the front yard of their cottage and a small duck boat called a Ducker that is very rare, highly collectible and sought after by many waterfowlers. I couldn't believe I was looking at one of those boats, and as I got out of the truck and walked over to check out the boat and blocks I heard some talking and rustling in the shed, a man walked out and looked at me like, who the hell are you. Shawn came out and introduced me, Gene kinda smiled and in his own way made me feel very welcome. That was also the first time I heard the term "getting pumped for the prep". Every year after that, Gene going through that ritual always got me anxious for the season.

*I will miss Gene and our talks while watching college football mid-days after a morning hunt. I will miss him getting up in the mornings and sitting in his chair in his underwear with his feet up and his board full of remotes. I will miss him with a cottage full of labs running around and telling him "awe come on, they just need a little lovin!" I will miss him asking if I was coming up the following weekend.*

*I will miss him.*

“ *Having lived across the street from Gene and Linda for some 25 years, I will surely miss his hellos from across the street and the waves when he worked out in his yard. Gene was always friendly and cordial to us and he loved to laugh when we would talk. It is comforting knowing he is not suffering anymore. I will miss boisterous and outgoing personality. Rest in peace my friend and neighbor.*

“ *Gene has a very special place in our hearts and we have a treasure chest of memories of times spent together. It was your's and Gene's urging that got us to attend a Marriage Encounter Weekend and that helped convince us to become a presenting couple...beginning a long and beautiful friendship (even with the ever present red pencil marks covering our talks). We pray that God will comfort, sustain and uphold you as you absorb the loss of Gene and grant you the peace that He alone can give. All of you will continue to be in our prayers.*

“ Met Gene for the first time in 1961 as he and with 62 others sat for our first class of veterinary school - the class potentially of 1965. We last about a third of the class academically in the second year. It was a tense period even for the top students as almost every exam was a serious measure of moving on. In spite of it we all loved and felt committed to our studies and program. Gene always had great jokes and sustained sense of humor about our program. He was a good friend to all of us and upon graduation as we all did moved on to the next levels of activity . He like most of us rarely due to local of residence, family or professional direction rarely interacted as we were all very busy folks. But that did not ever deter our respect for each other. Gene was part of our veterinary family , highly respected and will be missed. I and the others in that life pray for Linda and the rest of the family during your time of deep grief. The void of his loss is felt by everyone. Mary Lynn and I know the pain will ease but never really go away so be strong and think of the smiling face we will all remember. Don Howard CVM '65

“ I always thought my dad was a really special guy....teaching me to respect myself and to keep trying when things got difficult....and of course to be the best fisherman in the family!! Then my children were blessed with his knowledge and sense of humor. He has left us with so much....enough to hang onto for a lifetime!! Love u daddi

“ I had the pleasure of knowing and working with him for 10 years. I almost did not apply for the receptionist job at Troy Veterinary Hospital because I did not have any experience. But with insistence from my husband, I went. I am so glad I did because I am still working there after 26 years and loving it. It is the best job I have ever had! Dr Palicke always spoke highly of his family. I always heard about all the fun times they had at the cottage. He was so knowledgeable about history. He could remember names, places and dates. Some I had never heard of. He would quiz me on historical events and needless to say, I did not know much about history. I still don't!! We also talked about Jesus and our churches. He often talked about his pastor and his wife. I sure have some precious memories of those days gone by. I know one day I will see him again in our heavenly home. Linda Williams

“ Our deepest condolences to aunt Linda and her family. I has been many years, but I will always remember uncle Gene as a super guy. I can remember going to his clinic in Troy where he cared for our dog "Baldy" - he was a great doctor.

*Love, David & Carol Jensen*
