“ *He worked for me, at FCA, but only responded to my boss, Brent, but that was find with me. We got along find and shared a laugh all the time. He was talking of retiring to Romania. I always meant to go with him to a draft beer bar but I lost my phone and his number. His daughter went to U of Miami and my son went to MSU so we didn't have any fun with that. But he was proud of that. I would have gone to his funeral but I found out to late. He and Mike Jurge were good friends. I miss him.*
