“ *Love you Joe. Had such a blast these years - working, talking, hanging out after work, you're one of the greatest! I went to you for "Confession" ("What have you to Confess this TIME?!?" LOL). Condolences to Joe's kids and grandkids, he was such a heartfelt, giving man. Sorely miss him.*

“ *I known Joe was so Happy to have seen all the Guys & Gals from General Dynamics that have worked with and for. From UAW International Reps, The Engineering people he had worked with throughout his years of Service. All of the past Employees that had worked with or for Joe. He was a Mentor to many through the years. He was my first Supervisor and has taught me more about or Programming process. And just as he had explained to " Pass along what I have taught you " it will only make your job easier. I want to take the time to thank Joe's Daughter & Son in law for spending time with as many GD folks as possible.*

“ Joe you will forever be in my heart. Never will I find a better friend than you. You have been there for me through thick and thin and I will never forget you or get over losing you. You had a heart of gold and now a days that is pretty rare. I will never forget the good old days when you, me and Dell used to hang out. Or our times at your cottage. All precious memories. Love you Joe.
