“ Dear Mrs. Maloziec, Laurie, John, Sabrina, and Alex:
I don't know what to say. 30 years of being practically connected at the hip to Julie kind of makes you all part of my extended family. Mrs. Maloziec- I probably ate dinner at your house during high school more than at home. I know Julie and I would get the Fry Daddy out nearly everyday after school to make french fries. I am sure we splattered grease everywhere. Johnny, you were as much my little brother as you were Julie's. I think we tormented you in our younger years as much as you tormented us- especially when we were trying to get ready to go out. Laurie- thank you SO MUCH for calling me to tell me what was going on. I will be forever grateful to you for giving me the opportunity to spend her final moments with her at the hospital. Being able to touch her, hold her hand, and kiss her goodbye on the forehead are final moments I will forever treasure in my heart. Sabrina and Alex- you 2 were her "kids" as much as my 2 nephews Nick and Luke and my niece Ally are "my children". Julie and I had so many things in common which explains our deep connection but one of them is that we LOVED being the fun-loving crazy wild Aunties who enjoyed every single moment shared with our family- especially our nieces and nephews! Though we may not be able to "see" Julie in the way we were once accustomed, we will always be able to feel her spirit with us. And when ever we need her, she'll be there. I will forever miss her and look forward to the day when it will be our time to reunite again but that's something only God knows. I am here for anything at all you may need. You all have my phone number if you need me. I love you, Lisa Allen

“ My deepest sympathies for Julie's family. She was a friend in high school and I had the pleasure of re-aquainting with her at the 10 year reunion. I knew of her health problems and had been praying for her. Julie is in peace and no pain any longer. She will be sadly missed.

“ My deepest sympathy to the family of Julie Maloziec. I had the privilege of being her assistant at MSI for 6 years, and there was never a dull moment with Julie around. My memories of her are of her sense of humor to make people laugh and at the same time let her tough side down for a few minutes to cry when she was feeling overwhelmed. I have not seen Julie since 2006 and had no idea of her medical struggles. If she didn't tell you you would not have known. Its hard to believe she is gone, but I personally know God makes no mistakes. She is in loving hands now and at peace. I love you Julie and will miss you. Thank you for the memories.
