“ *I first met Keith in 1989, a few weeks after he started working at TACOM, when he was assigned to our source selection board out at Selfridge. A harsh assignment for somebody new to the business, but Keith rolled up his sleeves and got to work, earning himself a reputation as a hard worker and a very knowledgeable software guy. He became the software alpha geek for every program I worked on that had software in it until I retired at the end of 2010. I and everyone in our office knew that Keith could always be counted on to know his stuff and deliver the goods. Most importantly, we all knew that he cared first and foremost about the soldier in the field who would end up having to use the stuff we developed, and the taxpayers who paid for it all. He was a good friend and I will miss him.*

“ I had the pleasure of working with Keith and know him since 2004. He always had a positive attitude, willingness to help, and approachable personality. May God bring patience, comfort, and peace to his family.

“ I worked with Keith from 1999 until his retirement in 2012. He will be remembered as a kind person. Earning his Master's Degree from the Naval PostGraduate School in Software Engineering was a huge accomplishment for him. May he rest in peace.
