*We send our love and wishes for strength to you in this difficult time. I am glad we got the chance to know Klara. One of the greatest gifts she gave us was teaching us about love and the importance of family. It was fun sitting with her in her kitchen as she beamed when talking about her beloved family and pointing to the pictures on the wall and showing us the albums nearby. She loved you all so much. She was always so appreciative of our visits and could not have been nicer. We are thankful to have known her and will never forget her. With love,
Dave and Sheila*
