

Leze Ivezaj

September 25, 1963 - August 9, 2020

On Sunday, August 9th 2020, Leze Ivezaj, a loving wife, mother of three, and grandmother passed away at a young age of 56 due to an aggressive cancer. Leze was born on September 25, 1963 in Montenegro to Zef and Maria Lucaj. She left a war-torn Montenegro with her loving husband Pasko, a doctor, and brought their newborn Ardian in her arms. With a few hundred dollars in their pockets, they came to America in search of a better life. With a brand new opportunity to work hard, she did everything and anything, along with her husband, to provide the best possible life for her family. She had two additional children, Valbona and Alban. She eventually became a grandmother to grandson Nolan.

She had a passion for making people happy. Her focus was to make everyone around her smile and comfortable, even if it cost her. She was a strong faithful catholic woman that believed in the power of god. She prayed every single day, and worried about her family day and night. She always put herself last, making sure her husband and children were cared for. She worked as a waitress for 31 years, and used her tips to buy a house and help her kids attend college. Her hobbies included cooking, health, nutrition, reading books, and listening to inspirational podcasts. She also had a passion for beauty, and clothing. She loved hanging out with her brothers and sisters and enjoyed shopping on the weekends. Her passion for creating unique healthy recipes and researching foods grew. We all joked that she was so good at creating unique healthy dishes, that we should open a café selling these ideas. She

enjoying cooking recipes from scratch and watching her family eat them with joy. She always worried about her self last, making sure everyone had eaten and slept. All the money she made was invested back into her family for a bright future.

Leze survived by husband Pasko, three children Ardian, Valbona, Alban and grandson, Nolan, with an endless number of loving relatives and close friends.
