“ *Geoff and family, We were so sorry to hear about Pat's passing. Alzheimers has such devastating affects on those left behind. We thought of you and Pat often and asked about her condition through Laura and Terry. We understand the loss and the grief you and your family are going through. We lost our beloved Chelsey 3 years ago and I still think of and miss her daily as you will your beloved Patty. You have a lifetime of memories to warm your heart and know that she is watching over you. With our love and sincere sympathy.*

“ dear geoff and family,  
sorry to hear of your loss, when i found out she had alzheimers it brought a lot of tears to my eyes. i have a father who has battled this disease for many years. he will be 90 this year and you can see the changes over the years and frustration when he can't remember. i continue to help with the alzheimers association and will do this also in her memory!!! patty always had a positive outlook and talked alot about her family. haven't seen her in many years but was always in my thoughts. now she is looking over her family and no longer in any pain. she will be your angel from above. you can always talk to her she is there to listen.very sad time for many but she is with her parents and brother.my prayers go out to the family that they will find peace within.

“ Dear Geoff, Melissa, Kurt and all of Patty's family,

*I don't have to tell you what a special person Patty was since everyone who met her knew she truly was one of a kind. Her laugh was infectious, and she always was laughing. I will miss that laugh. She had a gift for putting people at ease, making them feel welcome and important. She loved her family more than anything and was extremely proud of you. I know that through the years you will continue to feel her love for you as she will be watching over you always.*

*My love and prayers for all of you,  
Peggy Montgomery*
