“ I met Shirley when we were both in the nursing rehab in Grayling...she was my room mate...We made friends and kept in touch by phone..I had broken my leg and I told her when I could drive again I would come get her and take her to lunch. I just found out yesterday that she had passed almost 2 months ago...I tried calling her a few times but no answer. I kept thinking about her and put her name in Google and that's when I found her obituary....so sorry to family and friends...I really liked her we laughed and enjoyed each others company....I didn't know her long but know we would have been friends. God Bless
