“ *"Virge" you were always fiesty and spunky. You always said what was on your mind. You took care of things and you were a proud strong woman. You never complained about physical ailments. You gave me a lot of good life lessons. As you requested, I will remember you as my mother and recall the good times. You know the truth and you are shining down on us from above. I am sorry that I could not honor your other end of life requests. I miss you so much. I will love you always. Tell Pro, JP, Ernie, Olga, and all the gang that we send our love. Until we meet again.*
