“ *Jeep was my boss on Team Power in the late 90's and later my co-worker in the "NAC" for some years after that. Hardest working TARDEC engineer I ever saw even though his efforts were sometimes overlooked and under-appreciated by those who didn't know him. His efforts to mentor, tolerance, and much needed patience with me are still appreciated by me both before and after he retired. My condolences to his family and friends - he will be missed.*

“ *My condolences to the Hnatzuk Family. Jeep had a very successful career and provided great service to the Army Family of Vehicles. Rest-in-Peace.*

*My prayers and thoughts are with you Jeep, and especially with your family in their time of grief. You were one of my mentors when I first came to work for the government and I will always remember you not only for your extensive knowledge, but also your warm and caring personality. You have made a large impact on my career, but more importantly, on my life.*
